CONTROL MOLD, ODOR, & PATHOGENS IN YOUR GROW ROOM FACILITY

Ozone water treatment systems from ClearWater Tech are the most sustainable and effective tools available to manage multiple issues within a grow room facility. Provide your plants with clean, bacteria-free ozone enriched water to sanitize surfaces, equipment, control mold and odor, treat incoming and outgoing water, and recycle water for reuse.

- **WATER:** Eliminates pathogens while adding oxygen (ozone's only by-product)
- **WASTE WATER:** Contaminate control and BOD/COD reduction
- **SURFACE DISINFECTION:** Eliminates harmful microbes on all surfaces
- **INDOOR AIR:** Controls mold and odor

BENEFITS:

- Mold and odor control
- Microbe control
- No measuring, monitoring, or handling of chemicals
- Oxygenation of feed water supply
- Produced on site
- Small footprint

Maximize the efficiency in your grow room and produce **HEALTHIER, HAPPIER** plants with reliable products from ClearWater Tech.
